MICROBIZZ

Would you like easy access to real time reporting on your operations?

All operational data is stored in Microbizz and you are able to draw the reports you need from any device 24/7. You get a unique tool for business insight as well as the possibility to make business decisions based on real time data.

Microbizz contains a number of standard reports and you can make your own reports as well, with the exact data important to you. You can add the reports you want to your start page in Microbizz, to give you an ongoing daily overview, accessible from PC or app.

Reports and statistics can be presented with graphs and diagrams, to give you the best possible overview.

Microbizz offers more than 50 standard reports, some examples

- Time registrations
- Tasks
- Planned tasks
- Inspections & deviations

- Invoicing
- Equipment
- Consumption of goods
- Sales

You can also set up a number of user defined reports

Business Intelligence
You can even extend your Microbizz Solution with BI Tools for intelligent analyzing of your operational data.
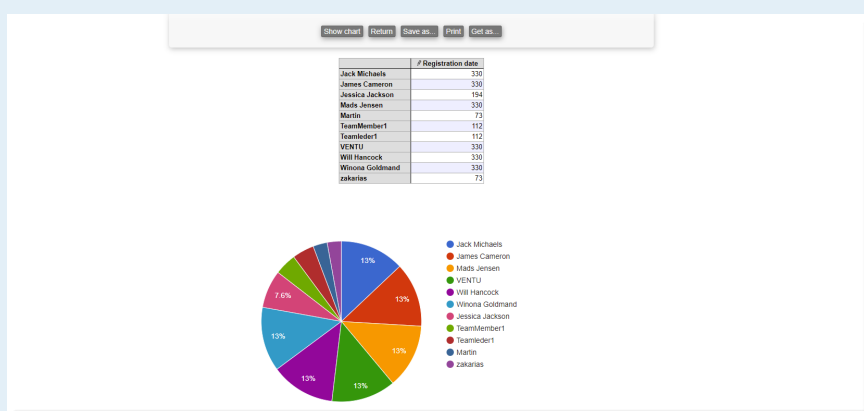

Examples
- open projects and ad hoc assignments
- capacity needs throughout the year compared with available hours
- customers, revenue, open tasks, time consumption and coverage ratio
- invoicing per project, ad hoc task and project manager
- profitability of service agreements
- capacity needs throughout the year compared with available hours
- relation between registered time, standard time and scheduled time
- repair tasks based on equipment types and items

Reporting

Example of a standard salary report

Report can be presented with graphics

Benefits

Transparency and overview
You get easy access to 24/7 real time reporting for optimal transparency and overview of your business.

Less administration
Direct access to relevant reports at any time, will save administration on both the creation of reports as well as follow up and presentation.

Strengthen customer relations
Presenting relevant real time reports to your customers is a strong tool for strengthening and developing your customer relations.
